

### **Jennifer Allred**

Jennifer Allred is a Water Resource Manager with the Office of the State Engineer, District I. She graduated with a Bachelor of Science in Biology from New Mexico Highlands and received her Masters in Water Resources at University of New Mexico in Albuquerque. She has been with the Office of the State Engineer for approximately 18 years. She has been processing and reviewing water right applications for over 15 years, in multiple basins in OSE District I.

### **Lorrie Gallegos**

Lorrie Gallegos is a graduate of New Mexico State University with a Bachelor of Science in Civil Engineering and continued to get her Masters in Business Administration from New Mexico Highlands University. She has been with the Office of the State Engineer for just about 20 years. She is currently a Water Resource Manager and has been the go-to when District I receives the Water Right Accession Forms from the New Mexico Regulation & Licensing Department/Cannabis Control Division (RLD/CCD). She is here to hopefully answer any questions you may have.

### **Elizabeth “Liz” Newlin Taylor, Esq**

Elizabeth “Liz” Newlin Taylor, Esq., is a Principal in Taylor & McCaleb, P.A., Corrales, NM, and has practiced water law in New Mexico for 30 years. She majored in journalism at Texas A&M University and was a newspaper editor in Texas and Albuquerque. Bored with newspapers, she attended the University of New Mexico School of Law and graduated summa cum laude in 1990. She received a certificate in Natural Resources Law and was an editor of the *Natural Resources Journal*. She has helped public and private clients buy and sell water rights, transfer water rights, and frequently works with the New Mexico Office of the State Engineer. She also has worked with New Mexico legislators on water-related bills and testified about them at the Roundhouse in Santa Fe (and on Zoom).
