## I. Authority and Purpose

The State Bar of New Mexico (State Bar) is authorized by the New Mexico Supreme Court (NMSC) to implement and administer a Legal Specialization Program under the authority and control of the State Bar. NMSC Order No. 18-8300-018, November 1, 2018. The Board of Bar Commissioners (BBC) voted to establish a Legal Specialization Program at its regular meeting on May 17, 2019 and appointed a Legal Specialization Commission on June 19, 2020 to administer the Program.

This set of policies and procedures are established by the State Bar Legal Specialization Commission (Legal Specialization Commission or Commission) to define and regulate the State Bar Legal Specialization Program (Program).

The purpose of the Legal Specialization Program is to assist in the delivery of legal services to the public by: providing greater access by the public to appropriate legal services; identifying and improving the quality and competence of legal services; and providing appropriate legal services at reasonable cost.

### A. Privileges and limitations.

The Commission shall not implement policies that alter the following privileges and responsibilities of certified specialists and other lawyers.

#### i. Scope of practice.

No standard shall be approved which shall in any way limit the right of a certified specialist to practice in all fields of law. A lawyer, alone or in association with any other lawyer, shall have the right to practice in all fields of law in which the lawyer can competently do so, even though the lawyer is certified as a specialist in a particular field of law.

#### ii. Practice of non-specialist.

No lawyer shall be required to be certified as a specialist in order to practice in the field of law covered by that specialty. A lawyer, alone or in association with any other lawyer, shall have the right to practice in any field of law in which the lawyer can competently do so, even though the lawyer is not certified as a specialist in that field.

#### iii. Individual certification.

All requirements for and all benefits to be derived from certification as a specialist are individual and may not be fulfilled by nor attributed to the law firm of which the specialist may be a member.

#### iv. Voluntary participation.

Participation in the program shall be completely voluntary.

#### v. Multiple specialties.

A lawyer may be certified as a specialist in more than one field of law. The limitation on

the number of specialties in which a lawyer may be certified as a specialist shall be determined only by such practical limits as are imposed by the requirement of substantial involvement and such other standards as may be established by the Commission as a prerequisite to certification as a specialist.

**vi. Advertisement.**

Any lawyer certified by the Commission as a specialist may include the following or similar statement in a legal advertisement or solicitation: "State Bar of New Mexico Certified Specialist in the area of (certified specialty)" or "Board Certified by the State Bar of New Mexico in the area of (certified specialty)" to the extent permitted by the Rules of Professional Conduct.

- j. Perform such other duties and make such other recommendations as may be requested of or delegated to the specialty committee by the Commission.

#### **D. Alternate Path to Specialization**

If New Mexico does not offer a path to Specialization in a given practice area, attorneys may apply individually to the Legal Specialization Commission based on a national or other state organization's certification, such as an ABA Accredited Lawyer Certification Program.

Attorneys using this path to specialization must meet all requirements for certification in New Mexico and be certified as a specialist by "an appropriate authority" or organization accredited by the ABA. Such programs that would qualify for approval by the Commission are specialization programs certified by the ABA, state legal specialization programs and national specialization programs that require an exam.

### **III. Legal Specialty Creation**

The Commission will consider a proposal to create a new specialty area upon receipt of one or more of the following: written application from interested lawyer(s); written application from a section of the State Bar of New Mexico or other professional organization; a motion from the Board of Bar Commissioner; or by its own motion.

#### **A. Required showing**

A lawyer or organization seeking recognition of a new specialty shall submit a written application to the Commission, which shall include the following:

- i. **Signatures of 50 New Mexico licensed lawyers recommending the creation of the proposed specialty area. (Lawyers do not have to qualify for or be interested in being certified in the practice area.)**
- ii. A statement as to whether the State Bar of New Mexico or other reputable professional organization has a practice section or committee in the proposed specialty area and the current number of members in that section or committee.
- iii. A demonstration that the proposed specialty area is an established practice area by providing information about one or more of the following:
  - a. Other states or accredited national organizations that offer a specialty in the practice area;
  - b. Listings as practice area for lawyers in representative publications or online services;
  - c. An ABA section for the practice area;
  - d. Listing as practice area in Martindale Hubbel;
  - e. Listing as practice area in Best Lawyers in America; and
  - f. Referral service listings.
- iv. Signatures of 15 lawyers who are interested in seeking certification in the proposed specialty area.
- v. A definition of the proposed specialty area.

- vi. A statement that the contemplated definition of the proposed specialty area is not in substantial conflict, nor substantially overlaps, with the definition of a current specialty area, or, if substantial conflict or overlap exists, a statement explaining why the proposed specialty area should be recognized despite the conflict or overlap.
- vii. An explanation about how recognition of the proposed specialty area will benefit members of the public.
- viii. A listing of the CLE courses in the proposed specialty area provided during the previous two (2) years that were approved by the State Bar of New Mexico MCLE department.
- ix. Signatures of ten (10) lawyers who are willing and qualified to apply to be members of the initial specialty committee that will draft the standards and examination for the proposed specialty. These lawyers must meet all of the minimum qualifications for specialist certification defined in these Policies with the exception of taking and passing the examination.

#### **B. Legal Specialty Evaluation Process**

Upon receipt of a written application that complies with the requirements listed above, the Commission shall circulate copies of the application to the members of the existing specialty committees and members of the Board of Bar Commissioners for written comment. The allotted time for comment shall be thirty (30) days.

The Commission shall consider the application and comments received and make a decision regarding approval of the proposed legal specialty. The Commission shall notify application sponsors of its decision no later than sixty (60) days after receipt of the application.

Approval or denial of a proposed area of legal specialty in New Mexico is fully within the discretion of the Legal Specialization Commission and/or the BBC. The Commission and/or the BBC may decline to approve an area of specialization for any reason.

#### **C. Appointment of Specialty Committee**

Once the application for a legal specialty has been approved by the Commission, the Commission will appoint the initial specialty committee. Committee appointments shall be conducted through an application process.

Applicants to serve on the **initial** specialty committee must meet requirements for being certified as a specialist within the specialty area with the exception of having taken the exam. Applicants for subsequent specialty committee positions must be specialists in the area. Applicants for appointment to the committee shall follow the application process for specialist certification defined in these Policies.

After appointment, the initial specialty committee will, under the direction of the Commission, draft the specialty standards, complete examination development training, draft the examination specification, and draft and administer the initial exam.

#### **D. Exam Development and Verification**

Except as otherwise provided in these Policies, all specialists certified under the State Bar of New Mexico's legal specialization program must take and pass an examination designed specifically for the specialty for which certification is sought. The examination may be created

by the specialty committee or it may be an examination associated with a national or other state organization that has been approved by the Commission, which offers a specialty in the specialty area.

**i. Job Analysis.**

Regardless of whether a specialty committee decides to create an exam or rely on a national certification for the exam component of the certification the specialty committee shall begin by performing a job analysis for the practice area. The job analysis will define the skill and knowledge sets that a lawyer must have to be certified as a specialist in the practice area. These skills and knowledge sets will be tested by the examination and other application requirements for the specialty.

**ii. Examination and certification by a national organization.**

As an alternative, or in addition to, creating an examination for a new specialty, a specialty committee may choose to recognize and recommend for certification by the Commission specialists certified by a national organization that requires an examination in the specialty area. Organizations that a specialty committee wishes to use in this compacity must be approved in advance by the Commission.

**iii. Examination creation by specialty committee.**

Each legal specialty committee may create a written examination of suitable length and complexity to evaluate an applicant's knowledge of the substantive and procedural law in the specialty area. The exam must also test professional responsibility and ethics as related to the specialty area.

To ensure reliability and validity, each form of the examination must be developed in accordance with the *New Mexico Legal Specialization Commission Examination Methodology*. Reliability refers to the consistency of test results, and whether the results can be replicated. Validity is the extent to which the subject matter addressed by the examination reflects the knowledge and skills an experienced practitioner in the specialty area needs.

All examinations will be created in collaboration with a psychometrician who will help determine the right mix of essay, true-false, and multiple-choice questions, and will also consult with the committee regarding examination validity and reliability, as well as the pass rates of the examination.

Exams shall be administered and scored by the specialty committee in accordance with the *New Mexico Legal Specialization Commission Examination Methodology*.

Members of the specialty committee who create and grade the **initial** version of the examination required under this Section are not required to take and pass the examination to obtain certification in the specialty area; however, they must meet all other requirements for specialization prior to being appointed to the specialty committee.

**E. Establishment of Additional Standards**

The Commission may establish, on its own initiative or upon the specialty committee's recommendation, additional or more stringent standards for certification than those provided in

these Policies.

**F. Legal Specialization Sunset Provisions**

A legal specialization that has fewer than ten (10) specialists for three (3) years or more is subject to being sunset by the Commission or the BBC. If a specialty is sunset, the specialists currently certified under that specialty will be allowed to continue to be specialists for the duration of their specialization term.

The certified specialist must notify the Commission when he or she ceases to be engaged in judicial service. During the tolled period the judge will not be required to pay annual dues or comply with certification rules and standards, and will not be identified as a certified specialist.

If a specialist continues in judicial service after the two (2) year tolling period, the specialist's certification shall be suspended. In addition, the applicant authorizes the disciplinary agency to advise the Commission of the

imposition of any discipline, public or private that has been imposed on the applicant.

**F. Fees.**

The Commission from time to time shall set the amount and time for payment of all fees that it determines are appropriate. The applicant shall then arrange for payment of the examination fee and schedule an exam with the specialty committee.

References must be representative of various facets of practice in the specialty field. In a specialty field in which court appearance or administrative proceedings are important aspects, the specialty standards may require that at least two of the five references be judges, administrative law judges, referees or other judicial officer before whom the applicant has appeared within the one (1) year period immediately preceding the filing of the application for certification. Within thirty (30) days after publication, any person may comment upon the applicant's qualifications. <comments to committee> Such comments shall be considered as part of the independent inquiry and review process.

**L. Independent Inquiry and Evaluation by Specialty Committee**

An application shall not be acted upon until the minimum number of references required for the specialization have been received and the comment period following publication has expired. At that point, the specialty committee shall engage in an independent inquiry into the applicant's qualification for specialization certification.

The inquiry shall consider information furnished by the applicant's references, comments received in response to publication of the application in the Bar Bulletin, and other information which the specialty committee deems relevant to demonstrate whether the applicant is proficient in the specialty field, including, but not limited to, the applicant's work product, problem analysis, statement of issues and analysis, or such other criteria which the specialty committee deems appropriate to take into account prior to making its certification recommendation.

If information is received by the Commission or specialty committee indicating the applicant may not have achieved an acceptable standard of competence in the field in which certification is requested, the Commission or specialty committee shall engage in an independent inquiry as to the issues reflecting adversely on the applicant's competence. The specialty committee, in its discretion, shall determine the manner and extent of this independent inquiry. Negative responses shall be investigated to assure that they are related to competence and not to personality conflicts or other factors irrelevant to competence.

**M. Oral interview.**

If the Commission or specialty committee desires further information, it may request the applicant to appear for an oral interview.

**N. Review and recommendation.**

Within sixty (60) days of the date of receipt of the minimum number of references or when the comment date following publication expires, whichever occurs later, the specialty committee shall review the application. to the Commission until the specialty committee has complied with the provisions of these Policies. If the review is delayed, the applicant shall be notified of the delay.

#### **O. Final Evaluation**

If the specialty committee determines that the applicant meets all requirements for specialization including passing the exam, the committee shall submit the application along with the specialty committee's recommendation for certification to the Commission for final evaluation.

#### **P. Commission Action on Applications**

- ii. The lawyer made a false representation, omission or misstatement of material fact to the Commission or appropriate specialty committee;
- iii. The lawyer has failed to abide by all rules and regulations promulgated by the Commission;
- iv. The lawyer has failed to pay the fees required by the Commission;
- v. The lawyer no longer meets the standards established by the Commission for the certification of specialists; or
- vi. The lawyer has been disciplined, disbarred or suspended from practice by the Supreme Court, the Disciplinary Board, or any other state or federal court or agency.

If the Commission revokes a specialist's certification, it shall notify the applicant in writing as to the specific reasons why the certification was revoked or suspended. The notification shall describe the process for appealing the Commission's decision including all applicable deadlines.

**B. Duty to inform**

A certified specialist has a duty to inform the Commission promptly of any fact or circumstance described in Section VI.A of these policies.

**C. Reinstatement**

If the Commission revokes its certification of a specialist, the lawyer cannot again be certified as a specialist unless the lawyer qualifies upon application made as if for initial certification as a specialist and upon such other conditions as the Commission may prescribe. In the Commission's sole discretion, the lawyer may be required to retake the specialty exam as part of the reapplication process.<sup>1</sup> If the Commission suspends certification of a specialist, such certification cannot be reinstated except upon the lawyer's application therefor and compliance with such conditions and requirements as the Commission may prescribe.

**D. Inactive specialists**

Certification of a lawyer as a specialist shall be automatically suspended upon the filing of a petition for inactive status with the State Bar. A specialist who files a petition for inactive status with the State Bar shall also file a copy of the petition with the Legal Specialization Commission. If the attorney is granted reinstatement from inactive status, the Legal Specialization Commission may reinstate the lawyer's specialty certification upon recommendation by the applicable specialty committee and the attorney's satisfactory completion of the certification renewal process defined in these Policies.

**E. Right of hearing and appeal to Board of Bar Commissioners**

A lawyer who is denied certification or continued certification as a specialist or whose certification is suspended or revoked shall have the right to a hearing before the Legal Specialization Commission and the right to appeal the ruling of the Commission to the Board of Bar Commissioners as provided in these policies.

## **VII. Petition for Reconsideration**

**A. Petition for reconsideration**

Within fifteen (15) days of receiving notice from the Commission of a denial or revocation of certification, the specialist or applicant may petition the Commission for reconsideration. The petitioner bears the burden of showing by substantial evidence that the Commission's decision should be altered.

The petition must adequately identify the basis for the determination for which reconsideration is requested, the date on which notice of the Commission decision was received and the reasons why the applicant believes the decision should be altered.

Within forty-five (45) days after receipt of a petition for reconsideration, the Commission shall review the petition and notify the lawyer either that the petition has been granted or denied. The Commission's decision regarding reconsideration is final.
