“American history is longer, larger, more various, more beautiful, and more terrible than anything anyone has ever said about it” —James Baldwin

From Amazon: Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important and successful history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the *New York Times*.

What started out as a survey of the twelve leading American history textbooks has ended up being what the *San Francisco Chronicle* calls “an extremely convincing plea for truth in education.” In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should and could be taught to American students.
